(2) The owner-developer, Bremble Properties, Inc., reserves unto itself, its heirs or assigns, the right to erect and maintain telephone and electric light poles, conduits, equipment, sewer, gas and water lines or to grant to others easements of right-of-way, therefore, on, over, or under a strip of land fifteen (15) feet wide at any point along the road right-of-way abutting said lots. The owner-developer will furnish a public water system owned by the owner-developer.

(3) No residence shall be constructed within The Waterfront, Section II, duplicating the design of another residence already constructed or under construction within any section of The Waterfront, nor shall the exterior appearance of any residence be substantially the same as that of another residence already constructed or under construction within any section of The Waterfront.

(4) Except in necessary construction areas and septic fields, no trees four (4) inches caliper or larger, measured 24 inches from the ground, shall be removed from the property without the approval of the owner-developer, its successors or assigns. (7) No lot may be re-subdivided without the prior written approval of The Waterfront Architectural Board.

(8) No building shall be erected closer than thirty (30) feet to any street or road, nor closer than ten (10) feet to any side or rear lot line, except that if two or more adjacent lots are used together for the construction of one dwelling, then the said ten (10) feet setback shall be measured from only the outermost lines of the combined lots.

Upon expiration of these restrictions, title to the said Common Area shall revert to the owner-developer.

Any garage or other building erected on any lot shall conform generally in appearance and materials to the dwelling on such lot. All boat docks shall be built according to U.S. Army Corps of Engineers specifications. No concrete, block, etc., higher than eight (8) inches from grade will be accepted, regardless of visibility.

(13) Each lot owner shall be required to make connection with the central water system provided by the owner-developer within ten (10) days of the commencement of construction of the dwelling on his lot and to pay a hookup fee of FOUR HUNDRED TWENTY-FIVE DOLLARS (\$425.00) prior to such connection (fee subject to increase on account of inflation). This fee includes one (1) water meter and system line to the owner's property line. The owner shall pay the owner-developer for water service per gallon used, with a minimum charge of \$8.00 per month. Billing for water service will be on a monthly or quarterly basis.

(14) No fence shall be constructed along any property line so as to be visible from the street or lake without the prior written approval of The Waterfront Architectural Board.

(17) No horses, cows, goats, pigs, fowl or pigeons shall be kept upon the premises of any lot or building thereon, nor shall there be kept upon such premises any other animal or pet which causes obnoxious odors, or is dangerous to the health or welfare of other residents in The Waterfront, and no nuisance shall be maintained or permitted on such premises.

(18) In the event of a violation or clearly threatened violation of any of the provisions hereof, it shall be lawful for any other person or persons owning any real estate situated in the said subdivision to prosecute any proceedings at law or in equity against the person or persons violating or threatening to violate any such covenant, either to prevent or enjoin such violation or to recover damages or other dues for such violation.

(19) Invalidity of any one of these covenants by judgement or court order shall in no way affect any of the other provisions hereof, which shall remain in full force and effect.

(20) The owner of any lot shown hereof shall provide for any dwelling constructed on such lot a septic disposal system constructed in accordance with the specifications of state and county public health officials. Location of all septic tanks shall be selected by the Franklin County Health Department.

(21) Camping shall be prohibited on all lots at all times.

(22) The owner of each lot shown hereon shall be responsible for the neat and orderly maintenance of such lot, shall provide for sanitary garbage disposal and shall not permit or suffer any garbage, sewage, refuse, waste, or other contaminated matter (except normal surface water) to be cast, drained or discharged from such lot into the waters of Smith Mountain Lake.

(23) In addition to the utility and drainage easements indicated hereon, all lot lines are subject to a 15 feet drainage and utility easement, the said lot lines being the center of such easements. Open drainage easements shown hereon shall not be obstructed and may be altered or changed only in accordance with plans prepared by a professional engineer, architect or land surveyor and approved by the residence engineer, Virginia Department of Highways.

(24) Each lot owner shall be responsible for keeping all boats belonging to him or his guests parked and/or docked in a neat and orderly fashion.

(25) The lot owners may form their own Home Owners' Association to protect the Common Area and to preserve the highest value of their respective properties.

(26) Nothing herein is to be construed to prevent the owner-developer, its heirs, or assigns from placing further restrictions or easements on any lot in the said subdivision which shall not theretofore have been conveyed from it.

(27) Restrictions number 3 and 6 above shall not apply to those lots or portions of the subdivision which are zoned and set aside for multiple dwelling units, as shown on the Map of The Waterfront, Section II, dated April 10, 1978, and recorded in the Clerk's Office of the Circuit Court of Franklin County, Virginia, in Plot Book 7, page 147-150
